- Knowledge of domain preferably Global Markets, Financial Risk, Treasury etc.
- Good to have: Ag-Grid, HighchartJS, NgRx

### **Responsibilities:**

- Work on design and develop scalable solutions using efficient Design Patterns
- Adept in handling the Non-functional requirements (performance, through put, SLA etc.)
- Excellent aesthetic capability with UX designing and development experience
- Ability to work on multiple projects concurrently
- Have a good understanding of all aspects of the application like rendering huge dataset, fetching data using HTTP and authentication.
- Identify improvement areas within the application and work to implement the same
- Flexibility in adapting to team requirements
- Ensuring high quality levels in all deliverables
- Participate in mandatory training and cross functions across team
- Demonstrate enthusiasm and zeal to acquire domain knowledge
- Work efficiently in matrix organization, with India and USA leadership
- Actively involved in process improvements and automations

### **INTERVIEW TOPICS TO BE PREPARED FOR**

- Angular/ UI Experience
- Previous Employment Experience

### **INTERVIEW KEYS TO SUCCESS**

#### Make Sure To:

- Stay focused (do not run on too long - managers view this as scattered)
- Speak slowly and clearly.
- Take the call in a quiet area with good reception.

#### Tips:

- *Be enthusiastic!!!!*
- BE SPECIFIC when speaking about your professional experience!!!
  - Avoid Yes/No Answers
  - Use active verbs when describing your work such as: lead, completed, solved, etc
- If you do not know the answer to a question, PLEASE make sure you express your willingness/eagerness to learn what you do not know!

**COMPANY WEBSITE**

I have included the company website. I strongly recommend you review it to learn more about the company because interviewers often test candidates on company knowledge.
